

T21 HLS Scrubber Tutorial

- After opening the Scrubber, connect to the T21 decoder using its UI credentials.
- In another tab, open Twitch.tv and navigate to the desired livestream.
 - The Scrubber will only gather HLS manifests.
- Available manifest URLs will appear on the Scrubber webpage.
- Click the blue **send** button next to the URL to begin playing the stream on your T21 decoder.

T21 HLS Scrubber **i** 1

2 Decoder Address: Username: Password:

3

Tab	Hostname	Manifest URL	Action
× ANGRYPUG - Twitch	video-weaver.mia02.hls.tvnw.net	https://video-weaver.mia02.h	send
× ANGRYPUG - Twitch	usher.ttvnw.net	https://usher.ttvnw.net/api/ch	send

1. The blue **i** opens up a modal with instructions on how to use the chrome app.
2. Form to enter the T21 decoder's credentials.
 - a. Can use either the domain name or the IP address.
